CLOTH BALANCE 布重秤

- 雙刻度Dual scales
- 可攜帶Portable

Rapidly, reliably, get weight specification of fabric samples at once!
—— Only having sample fabrics of 5x10cm or 10x10cm, you can get its full breadth yard weight, or its square meter weight.

快速，可靠，立即得知布樣的重量規格。
——只要有5×10 公分或10×10公分的布樣，即可測知布料的全幅寬碼重，或平方米重。

精確可靠 ACCURATE AND RELIABLE

經由精密天平校對，精度高，秤重可靠。指針轉動軸為不銹鋼精密研磨，表面粗度0.4S以下。磨擦小，靈敏度高。

Carefully calibrated with PRECISE BALANCE, you can rely on what you weigh. The shaft of pointer is made of precisely grinded stainless steel with surface roughness down to under 0.4S. Little friction makes high sensitivity.

快速平衡 RAPIDLY GET REST

機械式吊秤可立即平衡，立即讀取。比起電子秤之來回跳動，可節省很多時間。

Mechanical Balance get rest immediately for readoff, you can save a lot of time compare with waiting for the digits swinging about of the electronic balance.

立即讀取 IMMEDIATE READOFF

創新刻度 g/yd·in 可立即讀取重量，乘以布幅全寬（英吋），即知全幅寬碼重。另有標準的g/M²刻度，可直接讀取每平方米克。

A brand-new scale of g/yd·in will give you a quick way to get the full breadth yard weight from multiplying the reading by width in inches. Another scale is the standard g/M², directly read from the scale.

永久耐用 DURABLE ALL THE TIME

除少數必需彈簧鐵片以外，全不銹鋼結構，以及蝕刻上墨，美觀易讀的精密刻度，經久耐用。

All stainless structure, except few necessary spring materials, and the easy read, engraved and colored precise scales, ensure durability all the time.
